Completed Date: 3/22/2023

DESCRIPTION OF WORK

1. As of this moment it is an exploration dig, we do not know the exact location of the sewer line/cause of the sink hole, as with the other digs we may need to dig around a bit to find the cause, this is a starting price and could go up if digging exceeds the initial spot repair price, there is also a possibility on this particular job that bushes may need to be removed to make the repairs and that would be additional as well
2. Hand dig trench
3. Repair or replace sewer line with schedule 40 pvc
4. Install clean out
5. Backfill trench
6. 10 year warranty on replacements 1 year warranty on spot repair
